49	Opportunity Bank A.D. Podgorica	Serbia	49	234	319	23
50	Sanasa Development Bank	Sri Lanka	86	206	93	241

*Forbes'* first-ever list of the World's Top 50 Microfinance Institutions were chosen from a field of 641 micro-credit providers. The list was prepared by the Microfinance Information Exchange ([www.themix.org](http://www.themix.org)) under the direction of *Forbes* magazine. To qualify, the institutions must have made available their audited financials and must have passed review by a *Forbes* panel of advisers. This sortable table gives the rank (out of 641) for the top institutions according to scale, which is based on the size of their gross loan portfolio; efficiency, which considers operating expense and the cost per borrower as a percent of the gross national income per capita of their country of operation; risk, which looks at the quality of their loan portfolios, measured as the percent of the portfolio at risk greater than 30 days; and return, which is measured as a combination of return on equity and return on assets. Each category is equally weighted for an institution's overall ranking.

*Forbes'* first-ever list of the World's Top 50 Microfinance Institutions were chosen from a field of 641 micro-credit providers. The list was prepared by the Microfinance Information Exchange ([www.themix.org](http://www.themix.org)) under the direction of *Forbes* magazine. To qualify, the institutions must have made available their audited financials and must have passed review by a *Forbes* panel of advisers. This sortable table gives the rank (out of 641) for the top institutions according to scale, which is based on the size of their gross loan portfolio; efficiency, which considers operating expense and the cost per borrower as a percent of the gross national income per capita of their country of operation; risk, which looks at the quality of their loan portfolios, measured as the percent of the portfolio at risk greater than 30 days; and return, which is measured as a combination of return on equity and return on assets. Each category is equally weighted for an institution's overall ranking.
